

FROM GLENN AND ANNE LEVER WISHING YOU A MERRY HOLIDAY SEASON
SHARING A FEW HIGHLIGHTS OF OUR EXCELLENT 2015

Our focus this year was more on our family than drag racing. We went to a wedding, a reunion, and three funerals; helped our son George update the house he purchased, but never got the old RV all the way to Colorado to visit Arthur. Of the races we attended, there were two **Hot Rod Reunions; one in Bowling Green, KY and one in Epping, NH**. We always enjoy these events and took 1st Loser or 2nd Place at both races. Another terrific race was the **Blue Suede Cruise at Summit Motorsports Park in Norwalk, OH** with George in our crew.

Here are some pic from **Bowling Green**. Incredibly hot and humid with Kentucky torrential downpours too. We were lucky to pit in a hard to find dry area.

Prior to race day, we had good warm-ups; both the dragster and driver performed well.

This is a time trial prior to race day. Glenn is ready for the start; please hurry before he melts!

Fellow racer Steve Walzac helps Anne to backup Glenn in the rubber he just laid down on the track.

At the **Epping, NH** race, Peggy is with us. Lots of news for the siblings to catch up on. (I think the topic here was food for dinner that night.)

Following this race, we spent some time exploring Peggy and Ted's new home base in NH. The deck across the back of the house has a breathtaking view and Peggy's garden is a masterpiece.

After several years of promising to build this car, work has begun again on the 49 Chevy Gasser for Anne to drive. (This car was Arthur's school project at Hot Rod Institute in SD)

Our 454 GenIV motor started right up. Lots of work and fun ahead.

We both enjoy Saturday mornings with the CarNuts on hand to play with cars.

WISHING YOU A MERRY HOLIDAY SEASON

SHARING A FEW HIGHLIGHTS OF OUR EXCELLENT 2015

In March, after months of delay, George's home purchase became a reality. He now lives a few blocks away from us. It's a small home with a mammoth fenced yard.

Glenn and Anne put in many hours there while George worked to pay the bills.

On his patio, George is always ready for an evening of star gazing near a roaring fire.

In October, George met Klyde at Lollypop Farm and invited him home.

Arthur is working and living in Colorado. He moved out of the Boulder area to Littleton and from high end car restoration in a small shop to collision of any vehicle in a much larger shop. Great opportunity to expand his skills and work on his own art pieces.

This is a negative image metal sculpture that Arthur made as a 2014 Christmas gift for George. It hangs near the entry of George's new home.

He is also trying small canvas art. This is 1 of 3 pieces Anne received for her birthday.

Arthur came from Colorado for Glenn's 65th (Yes, he's now 65!) and T-giving. Here he is working on an aluminum piece.

Anne took more cake decorating classes. Practice makes perfect.

Brother Michael had three birthday parties this year. He does love a party!

Michael and his housemates threw their usual excellent Christmas party. A great time was had by all.
